

TEKNIC

ROTARY CAM SWITCHES

Teknic introduces a complete range of Rotary Cam Switches in the 6 & 10 Amp current rating category, to meet all the requirements of the electrical industry. This is a CE marked product, in accordance with the applicable standard IEC 60947-3.

Our switches have a finger proof and robust design, thereby providing an optimum performance guarantee. The unique product design enables a quick installation of the product, and a safe operation life. This product can be used effectively in a wide range of Electrical, Electronics & Instrumentation applications viz Control Panels, Elevator Industry, Motor Control, Automation & Machinery.

Teknic Rotary Cam Switches offer complete design flexibility to assemble complex switching programs, contact ratings and customize all switching applications. It is suitable for AC as well as DC switching applications.

Switching Angle: Available in 30, 45 & 90 degrees, depending on number of positions.

Degree of protection : IP 65 as per IEC 60529.

Accessories : Flange & Without Flange versions are available.

Flanges are available in Yellow, Grey, Black & Silver colours.

Knobs are available in Regular & Extended type in both Red & Black Colour.
